Become your best

Aligning education with unique natural potential

In today's educational environment, it is vital to recognize and nurture each student's unique blend of personality, interests, and abilities. Our approach goes beyond mere academic achievements; we aim to align educational experiences with each student's intrinsic potential, paving the way for a fulfilling and successful future.

Personalized Guidance

We specialize in tailored career guidance that recognizes each student's individual journey. By understanding the intersection of their personality, interest, and aptitudes, we help direct them towards career paths not just to succeed, but to excel.

Your Role

Educators play a crucial role in this transformative process. By incorporating personalized career guidance into your curriculum, you empower students to make thoughtful and impactful decisions about their future.

Empowering Students

Highlighting each student's unique potential transforms your institution into a launch pad for future leaders and pioneers. This awareness of their inherent strengths inspires greater motivation and achievement among students.

Our Commitment

We are dedicated to supporting your educational goals with our comprehensive career guidance program. Our services are designed to enhance your efforts, guiding students towards fulfilling and suitable career paths.

WHO WE ARE

Pioneering student career guidance

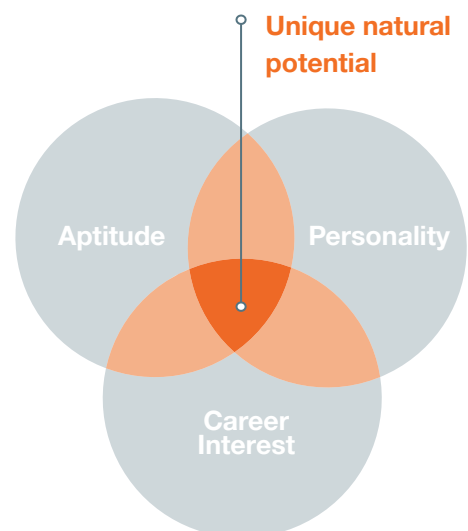

VedAtma is transforming student career guidance by focusing on individual uniqueness. We utilize elite tools like the Myers-Briggs Type Indicator® and Strong Interest Inventory® to delve into each student's personality, interests and aptitude. Our approach includes personalized, one-on-one online counseling, customizing sessions to each student's distinct potential and career aspirations.

These assessments form the cornerstone of career planning in top educational institutions, guiding students toward fulfilling futures with a proven framework for success.

Our certified counselors specialize in unlocking students' unique natural potentials, aligning their education and career with their personal attributes.

Choose VedAtma for expert guidance that empowers students with clear direction and a sense of purpose.

OUR PROCESS

Ensuring personalised guidance every time

1

Unlocking Unique Natural Potential

We begin by identifying each student's natural talents through Myers-Briggs Type Indicator® and Strong Interest Inventory®, ensuring a solid foundation for personalized guidance.

2

Personalized Online Counseling

Our process includes 5 and ½ hours of online personalized counseling, meticulously structured over three sessions to deeply understand and guide each student.

3

Discovering The Ideal Career Paths

The third step is to identify the career or study paths for each individual. Our comprehensive approach to career counseling, ensures that students are fully equipped to make informed decisions about their futures.

4

Post-Counseling Support

1 year email support to address all your queries and assist further; lifetime access to the VedAtma® dashboard for easy access to your reports, articles & updates

STEP ONE

Unlocking Unique Natural Potential

These assessments are conducted exclusively by our Myers-Briggs Type Indicator® and Strong Interest Inventory® certified practitioners, who have a wealth of experience in various environments and with diverse age groups, including children.

Utilizing globally recognized career assessments to identify Unique Natural Potential is our first step.

01

“

The Myers-Briggs Type Indicator® is the premier tool for identifying personality differences and is extensively used by top educational institutions for career development.

The Strong Interest Inventory® is renowned for its effectiveness in career planning and is widely trusted for educational and career counseling.

”

STEP TWO

Personalized Online Counseling

02

Personalized individual online counseling by a certified practitioner with each student, spread over 3 separate sessions on different days, totaling more than 5 hours.

Session 1

Personality Exploration (2 hours)

During this comprehensive two-hour session, the counselor will help the student explore various reports generated to discover the student's personality preferences and potential career paths.

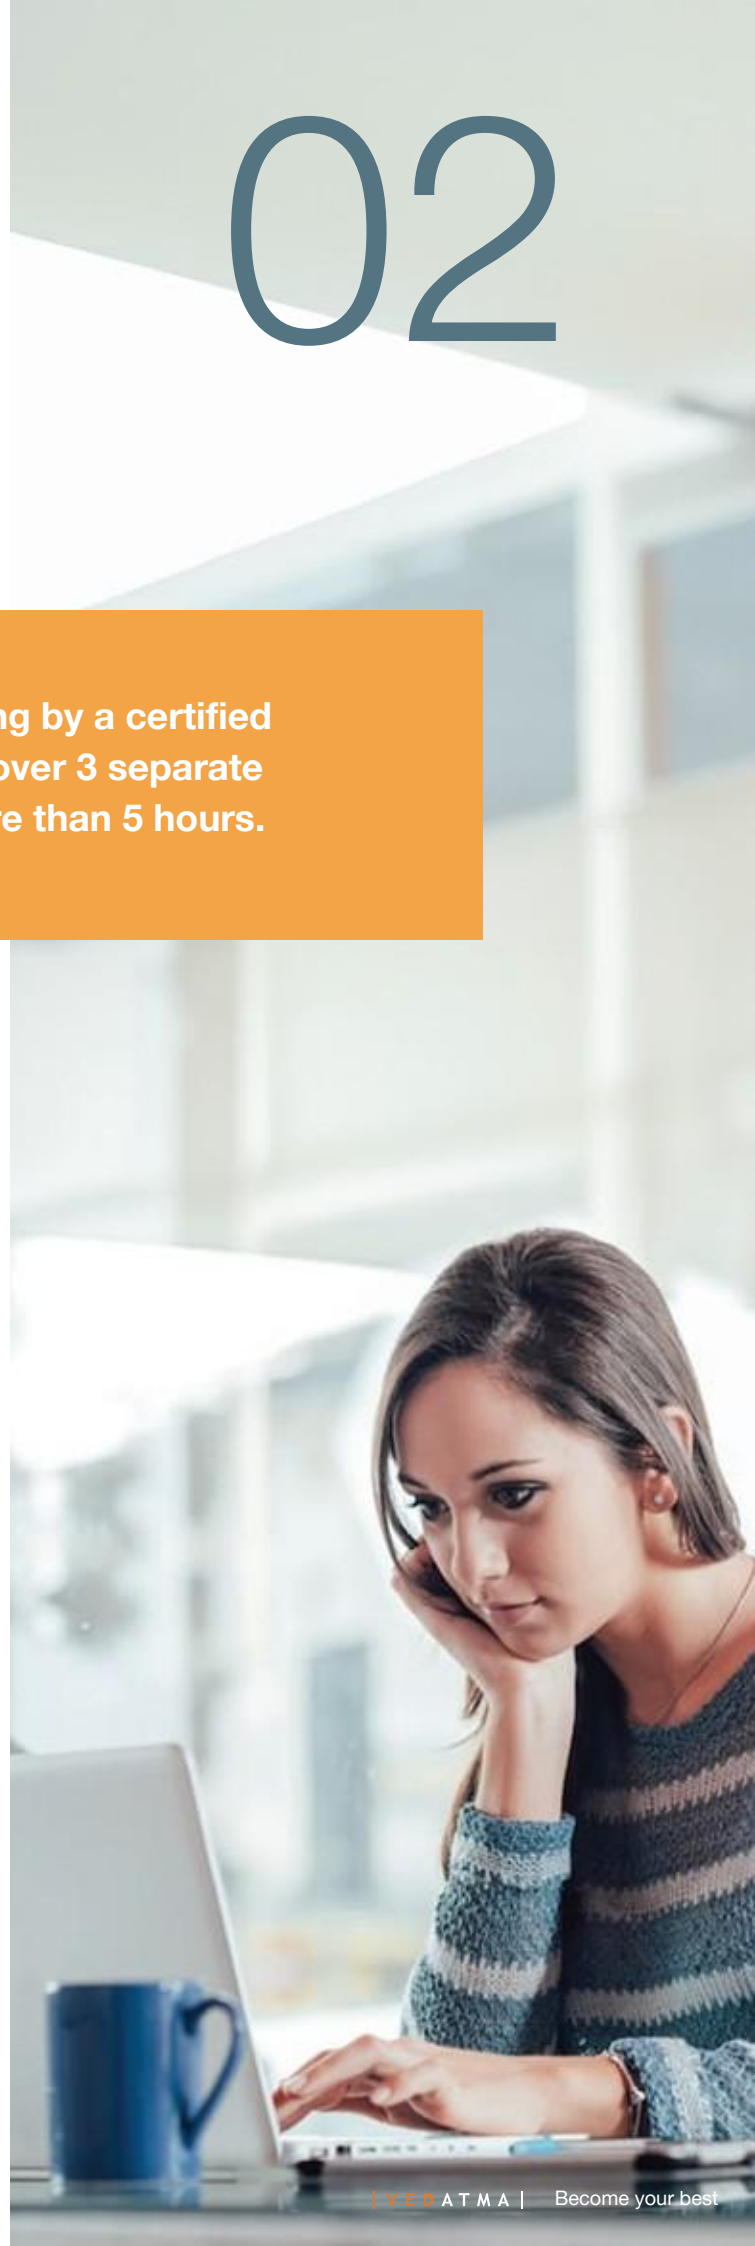

Myers-Briggs Type Indicator® Report:

This report goes deeper into the student's personality type, strengths, and potential areas for growth.

Career Fields Report: It identifies potential fields of work that resonate with the student's unique personality attributes.

Occupation Report: This report offers a list of careers that are well-suited to the student's individual preferences and personality type.

VedAtma® Personality Report: This gives a targeted analysis of how a student approaches decision-making, handles stress, and which career paths might be the most fulfilling for them.

STEP TWO

Personalized Online Counseling

Session 2

Interests and Aptitude Exploration (2 hours)

In the second session, which also spans two hours, the guidance counselor will take the student through:

Strong Interest Inventory® Report:

This comprehensive 17-page report comprises five sections detailing the student's preferred occupational themes, their basic interest fields, their personal styles, their ideal academic majors, and finally the student's preferences from an inventory of 243 occupations.

Personal Style Report:

This report shows the student's preferred styles of working, learning, leading, risk-taking, and teamwork.

Aptitude Report:

Exploring the skills and abilities of the student for better career path recommendations.

Occupation Report:

A shortlisted report of the occupations chosen by the student that aligns with their interests.

03

STEP THREE

Discovering the Ideal Career Paths

As the concluding phase of our counseling process, this final session is a pivotal moment for the student.

Session 3

The student discovers their ideal career paths from their unique natural potential (1 hour +)

Here's what they can expect:

Integrative Approach: The counselor combines insights from previous sessions to reveal a student's Unique Natural Potential, the confluence of their personality, interests and abilities.

Strategic Alignment: Identification of study streams and career paths that resonate with the student's natural strengths and aspirations.

Empowering Insights: The student will leave the session with a clear understanding of their unique potential, a vision for their life's work, and a roadmap to potential success and fulfillment in their chosen fields.

Comprehensive Final Report: This report provides a single-point reference for the student, summarizing the findings over the three counseling sessions covering Personality, Interests, and Aptitude. It also identifies ideal and potential career paths based on the student's capabilities, with links provided for further exploration and pursuance of these.

STEP FOUR

Post-Counseling Support

Guidance and Portal Access: One year of email support for continuing advice and assistance, along with lifetime access to the VedAtma® Student Dashboard for ongoing resources. Each student can utilize the AI chatbot on their personalized dashboard, offering real-time advice and guidance on recommended career paths.

Reports: Access their reports anytime via the Dashboard.

Tailored Updates: Receive articles and notifications about career development, customized to their interests.

Achievements Showcased: A special page to celebrate and record their milestones and successes.
